READY FOR WORK

iisi!!

EASY CHEMICAL MANAGEMENT IN A SINGLE PROGRAMME

A SYSTEM THAT SAVES YOU TIME AND EFFORT – FREE OF CHARGE

- Automatically updated safety data sheets
- E-mail notifications of changes to safety data sheets
- Chemicals in use can be assigned to different departments and chemical-specific safety instructions can be created
- You can download or print out documents that comply with regulatory requirements:
  - ► Safety data sheets
  - ► Lists of chemicals
- You can also export third-party SDS chemical data to iisi!!

- **Includes tools for chemical risk assessment**
- **Links to the most relevant work safety legislation**
- **All purchases are transferred directly to the system, making it possible to view your purchase history**

MOBILE VERSION

- Safety data sheets, safety instructions and a list of chemicals always with you
- Same department structure as in the web app
- Changes made in the web app are automatically updated in the mobile app
- Works offline as well
